Hi! My name is Piggy

I live on the Kikori River in Papua New Guinea

0 10 20 km

GULF OF PAPUA 3

Each tribe that lives on the Kikori River gives me a different name:

<i>Tribe</i>		<i>Piggy's name</i>
<i>Kasere</i>	→	<i>Kaso-Uwo</i>
<i>Rumu</i>	→	<i>Piku</i>
<i>Kibiri</i>	→	<i>Watemui</i>
<i>Porome</i>	→	<i>Watemu</i>
<i>Kerewo</i>	→	<i>Uwo</i>

Can you find the languages of the Kikori tribes and my different names in the box below?

Kasere

Kaso-Uwo

Rumu

Piku

Kibiri

Watemui

Porome

Watemu

Kerewo

Uwo

**I hatched some years ago on a
sand bank near the sea**

**But this is not the only place
where turtles of my species
lay their eggs**

**We can lay our nests on
riverine or coastal sand banks**

**How many
eggs did
my mother lay?**

**My mother laid her eggs on a beach
without trees and with hot sand**

That is why I have only sisters

**If my mother had made her nest
on a beach with many trees and
cold sand, we would all be boys**

**Find out what secret my sisters
are talking about:**

Life is not easy for little turtles like us

**Even inside the egg there is a big chance
of being eaten by animals like goannas,
or being harvested by people**

**During our first years of life, we have to find food
and survive many dangers**

**Since we are very small, it is easy to become
dinner for many animals like crocodiles
and big catfish**

**Help Piggy and
her sisters to
reach their food**

**Since I am very smart, I found
a safe place with food to help
me grow**

**Unfortunately, most hatchlings
do not have the same luck**

Can you find Piggy and her sisters hidden here?

**When I grow up,
the risks decrease**

**Few animals are big and strong
enough to break my hard shell**

Lift-out Game:
Welcome to Piggy's Life

Use the dice or spinner and

me to Piggy's life!

nd help Piggy to grow and lay her eggs

nd
th
nd

A hunter was just waiting your mother appear to get her

Your mother laid the eggs!

Go back to the start

Move forward 3 spaces

The sand is hot and babies grow fast inside the egg

Goanna found the nest

Big flood! Eggs under the water for 2 days

Stay one round without play

Move forward 4 spaces

Move back 5 spaces

ou found a safe place to grow and hide from big hungry animals

This year was dryer than usual. You did not found enough food to grow

forward
aces

Stay one round without play

v up and now will be
: You should find a
ach to lay your eggs

You commit a huge mistake! You ate a crab on a fishing line and an hunter caught you

A hungry crocodile found you

Move back 3 spaces

Move forward 4 spaces

Go back to the start

Lift-out Game:

Welcome to Piggy's Life

**Can you find the
7 differences
in these two
drawings?**

**But this does not mean
that I can relax**

**I need to be always alert
to other threats**

**If I do not pay attention, I can
get caught by a hunter's
fishing line or net**

Help the fisherman to find which fishing line caught the fish

**In the future, when I grow up,
I will find a nice sand
bank and lay many eggs like
my mother did**

**I will climb up taking care to not
be caught by animals or hunters
that want me and my eggs**

**Connect the points
in the correct order
to find out which
animal loves a turtle
for its breakfast**

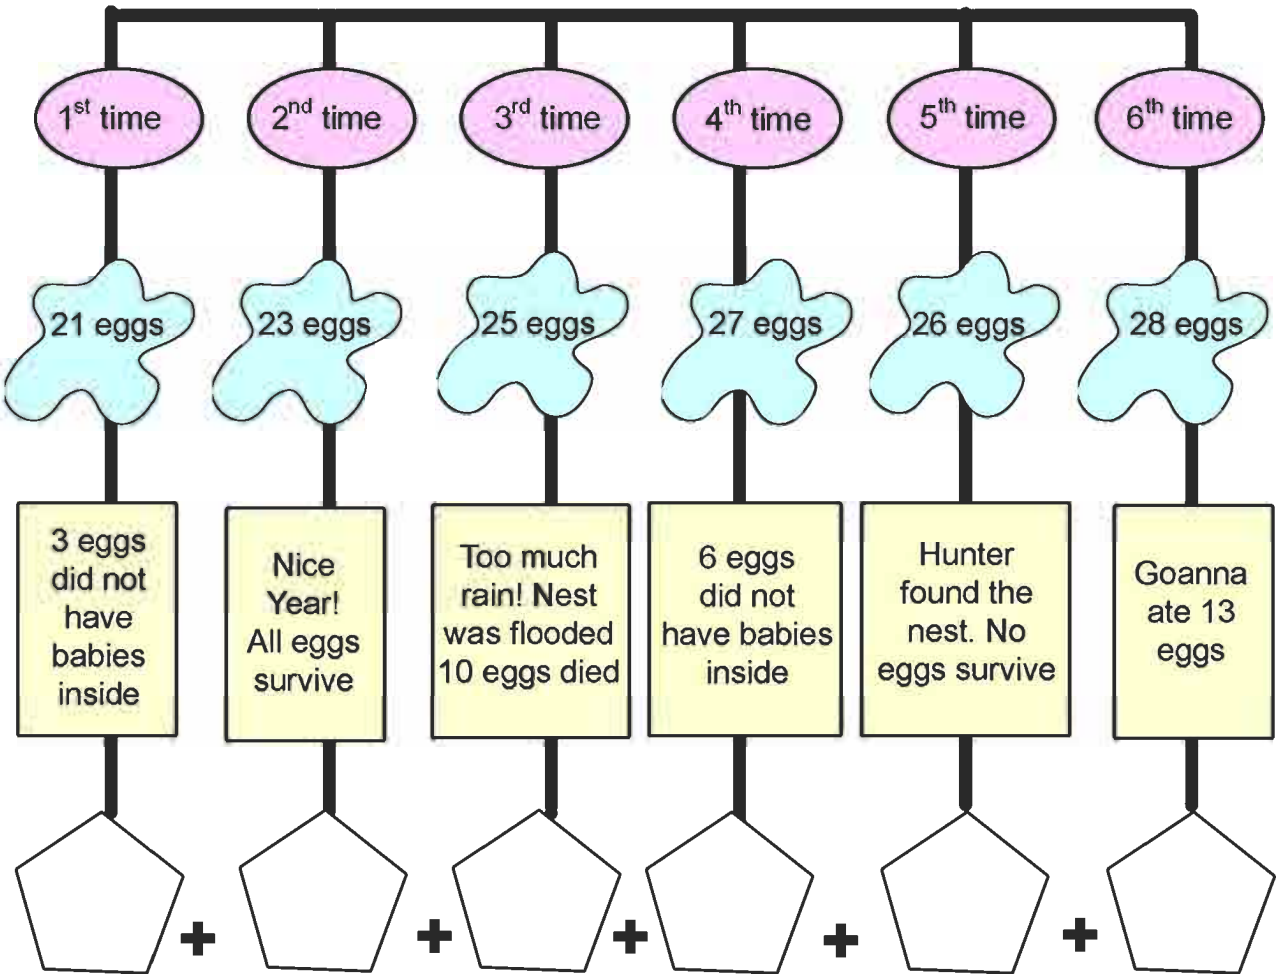

Start

**If everything goes alright,
and I do not get caught,
I can keep laying eggs
for more than 30 years**

Find out how many babies Piggy will have in her first 6 clutches if she does not get caught

||

**A mother turtle lays
many eggs for many years**

**It is not a problem if some
nests are harvested or
eaten by animals**

But, we need to be careful!

If hunters harvest more eggs and turtles than are replaced by babies, turtle numbers will decrease

They can even disappear!

We should preserve turtles like Piggy

**If we take care, they can stay
forever with us, our kids and
our grandkids**

The end

* The Pig-nosed turtle (*Carettochelys insculpta*) is restricted to the southern rivers of the island of New Guinea and the major rivers of the Northern Territory in Australia and is listed as Vulnerable in the IUCN Red List of Threatened Species

Answers:

5 -

15 -

7 - 25 eggs

9 - Turtle girls come from hot beaches and turtle boys from cold beaches

11 -

17 -

19 - Crocodile

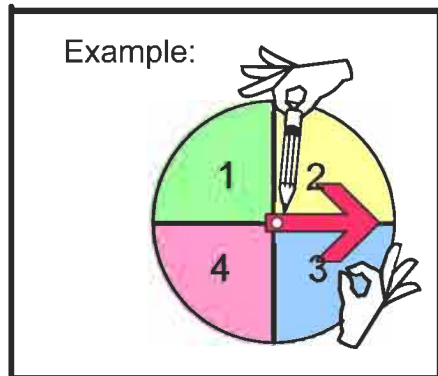

21 - 92 babies

13 -
