

The screenshot shows the iView website interface for the series 'The Great Acceleration'. At the top, there is a navigation bar with the 'VIEW' logo and links for 'Home', 'Watch Live', 'Channels & Categories', 'ABC Kids', and 'Programs A-Z'. A search icon and a user profile icon labeled 'Arthur' are also present. Below the navigation, there are tabs for 'ALL EPISODES', 'HISTORY', and 'SCIENCE'. The main title 'The Great Acceleration' is prominently displayed. A 'WATCH EPISODE 1' button with a play icon and a '+' sign is visible. A descriptive paragraph follows: 'This remarkable science-history series investigates the blistering pace of human endeavour in space exploration, computing, energy, resources, Earth science and our understanding of the evolution of life itself.' Below this, the host is identified as 'Shalin Naik'. A 'Series 1' section is shown with left and right navigation arrows. At the bottom, there are three episode thumbnails: a fern leaf, a view of Earth from space, and a prehistoric landscape. The first two thumbnails have a '54 m' duration indicator, and the third has a '55 m' duration indicator. The titles 'Episode 5 Blue Marble' and 'Episode 6 Life' are placed below their respective thumbnails.

Genetic breakthroughs have shed light on how life evolves in real-time. From filling in missing links to creating new species, in the last 50 years scientists have solved some of the big mysteries of evolution. (Final in the Series).
